Dear Customers and Partners,

Public Works Department is one of the very prominent engineering department of Kerala and is the statutory authority for designing, planning, monitoring, constructing and undertaking maintenance of public works of the State.

The history of Kerala Public Works Department can be traced way back from 1823 in the State of Travancore (which later formed the major part of Kerala State following the reorganisation of states in 1956) with the formation of the Maramath Department as a branch of the Huzur Cutchery (Government Secretariat) with an executive branch known as the Panivakai Maramath. During 1854, this was converted in to Public Works Department. The budget system was started in 1862 and the expenditure of the department brought under due control and in 1898 a new scheme was drawn up for auditing the accounts of the department.

Kottaram Holdings is licensed contractor under PWD to participate small kind of maintenance job last few years in various locations in Aroor , Cherthala, Alappuzha, Kuttanadu, Haripad, Chengannur, Mavelikara, Kayakulam, etc.. more details are mentioned in our project library

Please be safe and stay healthy.
